

**Mr. Friedrich Merz**  
**Federal Chancellor of the Federal Republic of Germany**

12/01/2026

Dear Mr. Chancellor.

Allow me to bring to your attention our deep concern regarding the persistent actions of the Islamic Republic of Iran, which are in clear contradiction to the fundamental principles of human rights, international commitments, and the common values of the European Union. Following the National Revolution of Iranians and the demonstrations of millions of people in more than 100 Iranian cities, the inhumane repression and massacres by the Islamic regime against freedom fighters, and the widespread internet shutdown to silence the voice of the Iranian people, we ask you to reconsider your foreign policy and to expel the ambassadors and representatives of the Islamic Republic from Germany.

The severance of diplomatic relations, in light of credible international reports concerning the ongoing severe, systematic, and widespread violations of Human Rights, attacks on hospitals to seize the bodies of victims and the injured, and behavior contrary to humanity, would be a principled measure in line with the shared responsibility of the international community to uphold human dignity, the rule of law, and international security.

May this time, Europe stand on the right side of History and defend, alongside the Iranian people, Freedom and Democracy.

I am convinced that Germany, true to its values, will address this issue with urgency and rigor.

Respectfully,  
Assadollah Nasre-Esfahani (ancien ministre)
